Presentation

Fusion Radio by Mike Cameron-N8UKF

Mike gave us a lot of information on the Fusion Radio and Wires X and how it functions. WM connect now has 26 linked repeaters

He demonstrated how to get in and out of WiresX and how to find rooms.

One of the important messages is that we need to take a few seconds before speaking and after speaking to allow for lag times.

Repeaters and other information can be found at www.hamfusion.com.

Respectfully submitted.

Ross- N8GMY
